Announcements From Stephen Wilde

Kevin Roberts on left
Stephen Wilde on right

It has been my pleasure to serve as President of the EVT Certification Commission for the past 24 years. As I reflect, I am humbled by the dedication of the hundreds of volunteers that make our program work; proctors who volunteer their time and locations to make the exams available in their locales, validation members who donate their time to attend the annual conference to do statistical analysis and update the exams to be current with industry standards and requirements, and my fellow board members who spend countless hours planning and implementing ways for our program to grow. It has been a privilege to serve with such exceptional people. I am proud of all of our accomplishments, we have been instrumental in working with industry experts in creating and adopting NFPA 1071 Emergency Vehicle Technician Professional Qualification Standard and the development of NFPA 1911 Standard for the Inspection, Maintenance, Testing, and Retirement of In-Service Emergency Vehicles. These standards have changed our industry.

It is so impressive that technicians in our trade enthusiastically embraced the EVT program and fueled its

rapid growth. The feedback from technicians at trade shows and seminars has been a tremendous learning experience.

With all the dedicated individuals in our program, it is a good time to step aside and hand the reins over to our new President, Kevin Roberts from Rhinelander, Wisconsin. Kevin is a trainer for CarQuest and he owns, Roberts Repair, an automotive repair business which specializes in emergency vehicle maintenance. Kevin is an extraordinary person and we all look forward to the future under Kevin's leadership.

I will continue to serve on the EVT board and want to thank everyone for your support over all these years.
